The Magic Valley Newspaper Dedicated to Serving and Promoting the Growth of Nine Irrigated Idaho Counties

TWIN FALLS, IDAHO, FRIDAY, SEPTEMBER 9, 1966

TEN CENTS

MISS RODEO IDAHO, Harriet Sharp, Nampa, displays a memento presented to her Thursday afternoon by the Twin Falls County Fair Board. The silver plate is inscribed with the words, "We love you." Admiring the gift are dignitaries present.

## Fuel Leak Delays Gemini Space Shot

CAPE KENNEDY, Fla. (AP) — Using a syringe, technicians plugged a pinhole leak in a rocket fuel system today and the flight of Gemini 11 was scheduled for Saturday after a 24-hour postponement. The National Aeronautics and Space Administration officials rescheduled the launching of astronauts Charles Conrad Jr. and Richard F. Gordon Jr. for 9:25 a.m. 97 minutes after their Atlas-Agena target rocket is to take off, at 7:48 a.m. The leak was discovered in the fuel system of Gemini 11's Titan 2 rocket at 2:15 p.m., just three hours before the astronauts were to have awakened to start preparations for the three-day rendezvous and space walk mission.

A technician, using an electronic "sniffer" device, discovered the leak as he made a check of the oxidizer tank of the big Titan 2. The tank was unloaded and an extremely hard ceramic-like seal was placed over the hole, which was located in the oxidizer tank.

Launch crew members used a syringe to inject sodium silicate, commonly called "water glass," into the hole. Once injected, the solution formed an extremely hard ceramic-like seal. An aluminum patch also was placed over the hole.

A NASA official said pressure tests verified that the water glass had stopped the leak, and the launching was rescheduled. It was necessary to delay the launch to 24 hours, technicians unloaded only the leaking tank; the spokesman said, keeping fuel tanks aloft, keeping fuel tanks aloft, keeping fuel tanks aloft.

## Panel Reports Malignant Brain Tumor Not Sole Cause of Sniper's Rampage

AUSTIN, Tex. (AP) — A panel of doctors said today that a malignant brain tumor was not the sole cause of the sniper's rampage Aug. 1, a team of national medical experts said. They said it probably would have killed him within a year. Due to that tumor, about an inch in diameter, could not have been the sole reason why Whitman killed 10 persons and wounded 30 others, said a member of the 25-man panel.

## Miss Rodeo Idaho Event Nears Climax

Miss Rodeo Idaho contestants completed their competition Friday afternoon at the fairgrounds in the Horsemanship Division of the Miss Rodeo Idaho contest, which will be climaxed Saturday night when Harriet Sharp, present Miss Rodeo Idaho, will turn over her crown.

The contestants are judged in three divisions: Appearance, personality, and horsemanship. The judging is officially concluded with the horsemanship contest, according to Mrs. Dean Vickers, a Miss Rodeo Idaho judge.

In Appearance Division the girls are judged on poise, personality, posture, figure, harmony in personal appearance, as well as make-up, hairdressing, and the way they model their clothing.

The contestants are judged on poise, personality, posture, figure, harmony in personal appearance, as well as make-up, hairdressing, and the way they model their clothing.

## Favorable Weather Aids West End Day Attendance At T.F. County Fair

FILER — Ideal fair weather continued Friday as residents from Buhl Filer and Castelfield thronged into the Twin Falls County fairgrounds for West End Day. The 50th anniversary four-day event closes Saturday.

## Inquest Is Set in Rupert Deaths; Girl, 16, Killed

An inquest will be held into the motorcycle-car collision Thursday night north of Rupert which killed two Rupert brothers, and a Gannett girl, died Friday morning as the result of a one-car accident two hours earlier south of Bellevue to push the Magic Valley traffic toll to 34.

Mr. and Mrs. A. L. Montgomery, died in the Sun Valley Hospital at 10:30 a.m. Friday of injuries received when her struck a cement abutment on the Baseline Canal as she was en route to drill team practice at the Wood River High School, Hailey, about 8 miles south of Rupert.

Robert Walk said he could not schedule an inquest into the double fatality at Rupert until Monday because Larry and pre-arranged attorney is out of town.

Day when the Honda motor cycle on which they were riding collided with a 1960 Plymouth driven by Marvin Hanks, 16.

Rupert Hanks was taken to the Mindoka Memorial Hospital at 10:30 a.m. Friday of injuries received when he struck a cement abutment on the Baseline Canal as she was en route to drill team practice at the Wood River High School, Hailey, about 8 miles south of Rupert.

## Rider Hurt

A philosophical bull rider who told nurses at Magic Valley Memorial Hospital "this has happened before" was injured in the bull riding event Thursday night at the Twin Falls County Fair and Rodeo.

Chip Edson, Oskdale, Calif., was injured when he was bucked off his bull just seconds before the whistle, receiving no score.

After he fell off, the bull snatched his shirt, causing chest and arm injuries. He was held at the hospital for observation and was reported in good condition.

## Hearing on Idaho Water Plan Starts

BOISE (AP) — Idaho congressional and state officials asked prompt congressional authorization today of a \$10 million project designed to turn nearly half a million acres of southwest Idaho desert into farmland.

The Idaho officials told a House subcommittee the project would create 40,000 jobs and would provide water to the area.

The project would create 40,000 jobs and would provide water to the area. The project would create 40,000 jobs and would provide water to the area.

## Death Claims Fred Harder, T.F. Pioneer

Twin Falls pioneer, Fred W. Harder, 73, died Thursday evening at his home, 181 Alta Vista Drive.

Mr. Harder was a resident of Twin Falls since 1905, was born May 1, 1893, at Idaho Springs, Colo. From 1922 until his move to Twin Falls he lived in the mining town of Idaho Springs, Colo.

During his school days he worked in the mines and in his father's bakery business. After the bakery business burned out in 1905, he family moved to Idaho.

Twin Falls. The Harder family operated the first bakery in this city.

Mr. Harder married Ada W. Carlson on June 12, 1917, in Idaho Springs. He later entered the wholesale grocery business and was one of the founders of the Southern Idaho Wholesale Grocery Co.

In 1925, he and two partners, M. J. Neumann and C. P. Bowles, formed the F. W. Harder & Co. He was active in the grocery and meat business until 1942.

Mr. Harder had been a director of the Twin Falls Bank and Trust Co. since February, 1948. At the time of his death, he was a member of the F. W. Harder & Co.

Mr. Harder was a member of the Presbyterian Church, and was a 30-year member of Twin Falls Lodge No. 45 AF and AM.

## Miss Ohio Wins Pageant Talent Crown

ATLANTIC CITY, N.J. (AP) — Clutching a tiny American flag and wearing a stars-and-stripes dress, Miss Ohio sang a patriotic song that brought 7,000 spectators to their feet in the Atlantic City Convention Hall.

"What's better than a song about my country?" an excited Sharon Elaine Phillips said.

The scene was the second round of competition in the Miss America Pageant at Convention Hall.

Sharon had just captured the talent prize by singing "This Is My Country" in a coloratura voice that rang through the huge auditorium.

She shared preliminary honors with another blonde, Miss North Carolina, Barbara Anne Harris of Greenville, whose 36-24-36 figure won the swimsuit competition.

Miss Ohio first appeared on stage in a emerald-green, floor-length gown and sang an operatic selection, the "Bell Song" from "La Traviata."

She repeated a woman's lacer in a star-spangled red, white and blue floor-length dress. The audience cheered.

While backstage, Sharon questioned the judges on the results of the talent contest.

A senior at Ohio State University, Sharon is studying child psychology.

Miss Sharon Carolina, keeps trim by eating steak and avoiding sweets.

Sharon's father, for her hometown, Presbyterian church, is a pastor.

MISS IDAHO, Cheryl Elaine Couch of Twin Falls, waves to photographers covering the Miss America Pageant parade Tuesday night on the boardwalk. For the occasion she wore a long evening coat of carved white silk satin. The coat was accented with a single tailored bow of self-fabric. (Times-News photo)

# Interference With Election Laws Charged

**SHOSHONE** — State Senator Jack Murphy, Republican candidate for 14th Governor, charged Thursday that an Eastern Idaho Democrat is interfering with the election process for his own personal gain.

"Rep. Don Pieper, Idaho Falls, as a commander in the Herndon for governor army, is guaranteed high position in the state government in the event of the unlikely election of his candidate," Murphy said.

"I personally am a strong supporter of the GOP ticket, but I would never try to put everything in my power to block the candidacy of independent candidates as Mr. Pieper said he would do. Pieper is apparently frustrated, and since elections because he was defeated as a candidate for mayor of Idaho Falls, ran fifth among currently county candidates for the legislature two years ago, and said last fall he wanted to be a candidate for governor."

"As a representative of the people, he should not let personal problems interfere or confuse the voting public."

"If he wants to do something for his candidate, then he should admit it and follow the rules to support entirely the GOP position on the sales and use tax," Murphy concluded.

# Not Starving

**LANSING, Mich. (AP)** — Lansing police can't blame hunger for the motive for a break-in in a downtown restaurant.

They said that whoever broke into the eating place on Friday night, stole food and cooked it over a coffee-maker heating unit. The intruder did not take a few french-fried onion rings, they added.

# Magic Valley Funerals

**HAGERMAN** — Funeral services for Benjamin Wesley Giamer will be conducted at 10 a.m. Saturday at the Hagerman LDS Church by Bishop James McPherson. The funeral cortege will leave White Mortuary at 10:45 a.m.

**QUEEN OF THE 1966 Wagon Days** celebration this week-end at Ketchum will be Mrs. Mary Brown, who will wear this gown worn by her mother, Mrs. Ester Ritchie Lemon, when she was 19 years old. The long skirt has a small train and the blouse has a large lace border collar. The gown is trimmed in narrow black velvet ribbon. Her full, feathered hat was worn by members of her mother's family. Mrs. Brown's grandfather, Rev. Henry Ritchie, built the first church in Ketchum and was pastor there for many years. Her uncle, George Lewis, had the gown featured in the Wagon Days parade at 11 a.m. Saturday, built in the 1880's. Mrs. Brown is the first one in the Lewis family to preside as Wagon Days queen. Her aunt, Mrs. Harriet C. Lewis, who presided the year before through the 1940's, reigned over the first celebration on her 84th birthday anniversary. After her death her sister, Agnes Barry, was queen for several years and would have been again this year except for illness. (Times-News photo)

**Demo-Nominees Certified Here**

Two Democratic nominees have been certified as candidates for the November election in Harlan-Lancaster, Twin-Falls County clerk.

Lancaster said the two were certified by the Legislative District committees. They are Jack Clough, Twin Falls, state representative from District 23, and Harold Putzier, Twin Falls, legislative-district chairman from District 24.

## Racial Problems Still Trouble Africa Ten Years After Independence Rush

LONDON (AP)—Nearly one-sixth of the African continent is still troubled with racial problems ten years after the rush toward independence started. That huge area, a little less than 2 million square miles, includes South Africa, Rhodesia, Angola and Mozambique at the southern end of the continent. Although African leaders often lump them together as "colonialist Africa" or "white-ruled Africa," in racial attitudes they do not lump easily. Apartheid in South Africa is stronger medicine for the black man than the segregation practiced in Rhodesia. Both South Africa and Mozambique, although they freely acknowledge there is "economic segregation," are Africa is entitled to eat in the fanciest restaurants if he has the money, but not many have it.

On one aspect of the racial question, however, white South Africans, Rhodesians and Portuguese are united. They do not intend to have "one man, one vote" or black rule as long as they can fight it off. And they have the guns.

Segregation in South Africa is about as total as it can be in a society where Africans do most of the heavy work. There are about 12 million

## Bridge Club Has 9 Tables in Play

Magic Valley Duplicate Bridge Club met Wednesday afternoon at the Episcopal Church with nine tables in play.

North and south winners were Mrs. A. P. Russell and Mrs. A. D. Williams, first; Mrs. A. J. Meeks and Mrs. W. J. King, second; Mrs. Sturgeon McCoy and Mrs. M. G. Bloom, third; Mrs. Nicholas Bradic and Mrs. Roy Hill, fourth.

Africans in South Africa. Slightly more than a third of them live in "homelands" or reserves. Another third work on the farms and the rest live outside the cities and towns where they work.

East and west winners were Mrs. L. E. Soliday and Mrs. G. A. Wretz, first; Mrs. C. H. Weiler and Mrs. W. G. Kays, second; Mrs. J. P. Thoman and Mrs. J. D. Faldhusen, third; Mrs. L. R. Dunken and Mrs. V. point will be held.

There's a beautiful new  
**Gold Strike Redemption Center**  
at 355 West Addison

This week, Gold Strike opens a new enlarged Redemption Center to serve our growing community.

The location is new and so is everything else. The Center is furnished in a Spanish motif with rich panelling, wrought-iron fixtures, and brass trim. New display tables make it much easier for you to shop the wide selection of brand-name merchandise, all specially selected for our Western way of life. New "one-check service" at three service counters will make it much easier for you to redeem your books, in half the time.

Increased warehouse facilities and off-street parking are other features of our new Redemption Center.

You could be  
one of 107 winners at our  
**GRAND OPENING**  
FRIDAY - SATURDAY  
September 9 & 10

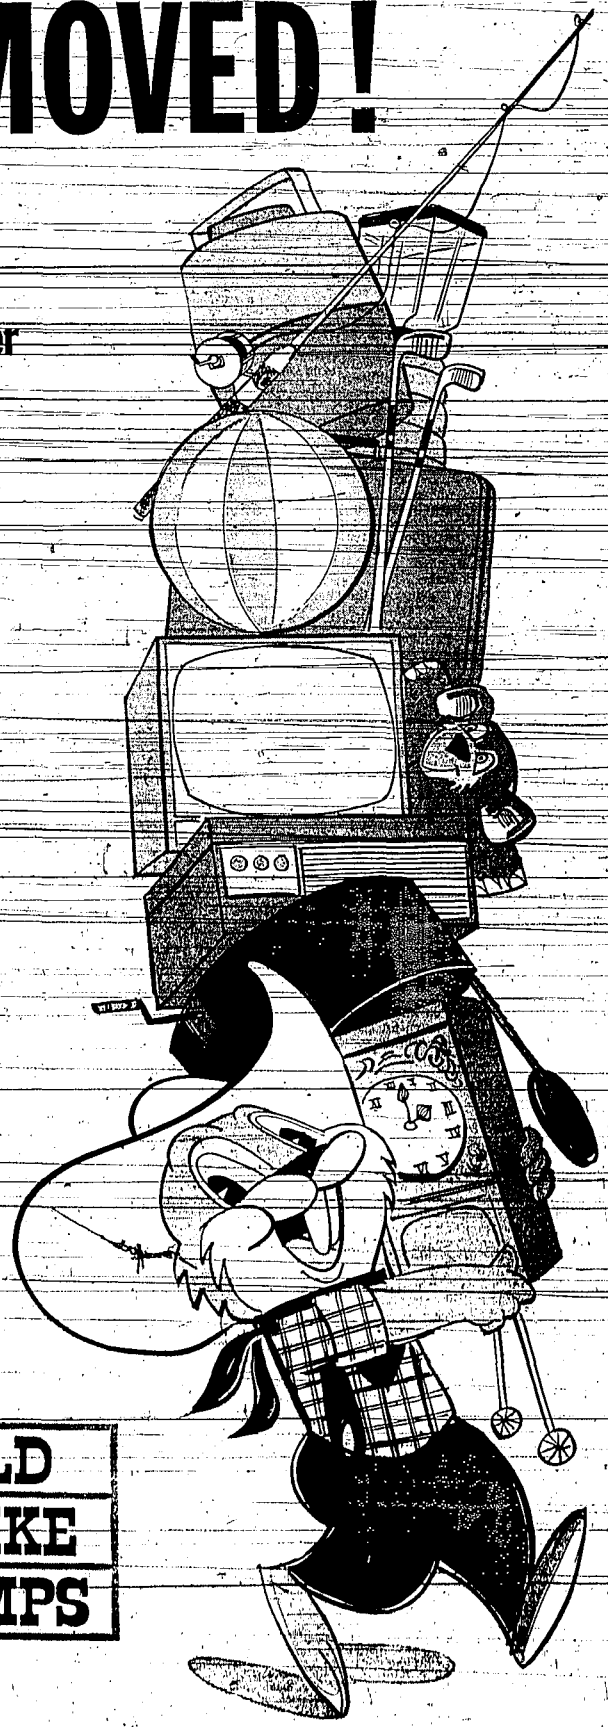

You're invited to visit our new Redemption Center during the three-day Grand Opening celebration. Register for the prize drawing and you could win one of these gifts:

- 1st prize winner: 19" portable RCA Television
- 2nd & 3rd winners: Big Boy Barrel-type Barbecue Grill
- 4th & 5th winners: Coleman Snow-Lite Ice Chest - Cooler
- 6th & 7th winners: Coleman Snow-Lite 2-Gal. Picnic Jug
- Next 100 winners: One Book of Gold Strike Stamps

Winners will be chosen by a drawing to be held at 5:00 p.m., Saturday, September 10, 1966. You need not be present to win. Any resident, 18 years of age or older, is eligible to register.

Western families live better with...

**WHIRLIGIG**  
By ANDREW JULY  
WASHINGTON—It is not surprising that Congress has modestly decided to pay no attention this year to the recommendations of its own committee for certain reforms in the conduct of business. Although the recommendations of the Monetary Committee would not strain the capacity of a Jim Fiske, they remain dangerous, they seek to change the rules of the game.

**Feeling Their Oats**

Some recent incidents of violence involving young men are disturbing, but not particularly unusual. It's normal for young men in the 18 to 25 age group to demonstrate their physical prowess, to show off and wherever they get the chance. The unfortunate part of the recent incidents is that in the process of demonstrating their strength, some of the young men have defied authority and posed a threat to others in the community.

One incident in particular was deplorable with a couple of young men beating an older person at a town hall meeting. The incident involving about eight young men who defied police was cause for concern in the community. It's a condition that cannot be condoned if law and order are to prevail. In both incidents, the prompt pleas of guilty and the resulting fines were ample evidence that the persons involved knew they were wrong, that they had nothing to mitigate the circumstances.

In other places and in many cases, it has been suggested that young men who tend toward violence who appear to want to fight, should be given the opportunity to enter the armed forces. The theory is that if they want to fight, they should be given the chance to fight where it would do some good. In some cases small city authorities have used the technique to take out of circulation some young men who have become particularly belligerent. And with some individuals, it might be the proper course of action.

However, it's no final solution to the problem. The matter of pressuring a young man into the armed forces merely transfers one of society's problems to the service involved. The military has a way of impressing on some of the most incorrigible persons the need to recognize authority and the rights of others. In some cases, the military has been successful in cases involving violence on the part of young men. If they continue to be involved in violent acts, if they continue to defy duly vested authority, then it means only that society has failed insofar as they are concerned.

Of course, responsibility for the failure must be assumed first of all by parents who have the primary duty of impressing respect for authority and the rights of others. Perhaps others who have contact with growing and maturing children must share the blame to some extent, but primarily it's the responsibility of parents.

A sobering thought for all concerned is the knowledge that young men cannot continue their tendencies toward violence indefinitely. Violence begets violence and sooner or later a young man involved in an act of violence that cannot be forgotten after a rather minor fine or similar penalty.

**FINAL WORD**

Citizens have the final word in all governmental matters in a nation with free and secret elections. Too often, they don't realize it. For example, if Americans want their federal government to conduct more responsibly, they need to elect officials who will do it. It is the duty of all citizens who are spending the money by their ballots, they must indicate their displeasure with free-spending philosophies. To date, the American people have refused to show clear evidence of such displeasure. Perhaps there will never be a clear indication of the feelings of the majority until and unless spending is the dominant issue in a national election.

In local elections involving expenditure of public money, notably bond elections, voters normally will live up to their responsibility of providing whatever is necessary. The key word, naturally, is "necessary." If citizens aren't convinced something is needed, more than likely they will turn thumbs down.

Here is the reason many bond issues are not accompanied by a broad-based educational effort. Those who propose a bond issue naturally are convinced it's necessary and they will make every effort to convince voters. On the other hand, the electorate can't be expected to reach a logical conclusion without having access to all evidence. Some voters, particularly those who may oppose a specific proposal, might feel that they're being subjected to a brainwash. Such apprehensions are organized who opponents lack that advantage and sometimes don't, even feel like speaking out.

Regardless of the reason for an election, whether for electing an official or passing judgment on it, bonding proposition, citizens should make it a point to mark a ballot. They have the only final word in the shape of a ballot; if they'll bother to use it.

**Interpreting The News**

By JAMES MARLOW  
WASHINGTON (AP)—The Red Chinese are proposing endless wars with the United States around the world in coming years to "liberate" it to death.

The United States, taking the Chinese as earnest, accepts the challenge although it may be only a bluff. The Chinese are still in the process of trying to develop nuclear weapons.

President Johnson and his top aides have promised to help any country against outside aggression. The Chinese call for endless wars—so-called "wars of liberation" is aimed at trying to say this country's strength until it crumbles.

The two views, pulled together from a number of statements spread over a year, gives the picture:

Last Sept. 8, Marshal Lin Biao, Chinese defense minister and his top aides, issued a statement that revolutionary wars by Asia, Africa, Latin America.

"We called for 'revolutionary wars' to liberate the 'encircled' cities," he explained. "The cities he meant North America and Western Europe."

Lin's strategy was simple, as he explained it: Constant war, breaks would be made in the States, when it became hard to win in one place, it would have to loosen its grip some where else, he seemed to be talking of the future.

The Red Chinese stepped up the pace Aug. 30 when their Communist paper, the People's Daily, called for anti-American uprisings around the world while U.S. troops are involved in Viet Nam.

The one thing wrong with this call to other countries to start wars: the Red Chinese don't have enough influence right now to get such wars started. They have suffered repeated disasters in their foreign relations.

On that same day, but by coincidence since he hadn't seen what the People's Daily said, Johnson denounced the "wars of liberation," although indicating he did not take the Chinese lightly.

He said they had described the war in Viet Nam in unmistakable terms. "It is meant to be the opening salvo in a series of worldwide wars," and if this war in Viet Nam, it will be tried elsewhere.

But then, meeting the challenge, he added: "If our might is needed to help other people defend themselves against aggression supported from without, it will be there."

He said this five days after the United States State Dept. and Secretary of Defense Robert McNamara gave a Senate committee assurances U.S. military assistance would not be used because of worldwide American defense commitments.

McNamara said this country had no intention of making commitments that at any time in recent years. The United States has defense pacts with more than 40 nations and other countries.

But this country has poured an enormous part of its strength in men and resources in Viet Nam. Is it overextended? What would it do if two, or three or more Viet Nams broke out elsewhere?

Rank and file of the country's security interests extend not only to countries with which it has defense pacts but to other areas where the United States has the peace in a significant way.

He said: "No would be aggressor should support that the United States would not support, unconditionally, unilaterally, U.S. military presence grants immunity to aggression."

He said that a further commitment to defend a particular country does not mean the United States would not help it in case of attack.

**Views of Others**

**MAY HANG TOGETHER**  
Charles Herndon, the Republican nominee for governor Tuesday, is likely to enjoy wider support from his party in the general election than any candidate in recent times. He not only spans the party philosophies, but he is a man who don't care for his program have little choice.

The alternative, Republican nominee Donald Samuelson, is a fiscal conservative who preaches that old-fashioned, "balancing government budget" is the paramount duty of a taxpayer's synonym for crippling false economy.

Herndon is a better businessman than this.

His uncharacteristic fear this election of letting anyone know how he stands in the financing of government. He is certainly exactly what we need as a governor any more. But it would be astounding, if as governor, he failed to follow the open-mindedness in the new ideas of a progressive state government he has exhibited in the past.

Herndon has been a puzzle all around this year. His successful last-minute answer used on state Sen. Cecil D. Andrus of Orofino has puzzled Herndon's image somewhat, but that, too, was uncharacteristic. There is reason to hope it will not be repeated.

The issue now, as even Andrus supporters must admit, is what kind of government the state deserves—a continuation of the bold new beginnings made in the last year or a retreat to the foggy dreams of the good old, sluggish days.

Herndon has his eyes open, and he holds all the cards.—Lawton Tribune

**WHY NOT DMSO, TOO?**

The recommendations of a medical advisory committee to its parent body, the federal Food and Drug Administration, calling for a cessation of experimentation with oral contraceptives are in marked contrast with the FDA's total ban on research and experimentation with DMSO, the one drug which has provided relief for the suffering for other millions of Americans before FDA abruptly stopped its use.

The FDA committee found contraceptive pills 99 per cent effective, noted "certain very interesting scientific data," at this time, providing these compounds unsafe for human use.

Doctors should be free to determine the "safety" and "effectiveness" of oral contraceptives, and a committee, and it may need to years or longer to determine if there is to be a relationship of oral contraceptives to cancer or diabetes.

The single should be said of the use of DMSO, which has had no serious effects on humans and which has resulted in almost miraculous relief for many sufferers, including, but not limited to, rheumatism and prescriptions. It seems to us that a congressional committee should investigate the reasons and justification. If any, for this hard-nosed FDA position on DMSO.—The Oregonian

**FINE IDEA!!**  
Dear Sir:  
I know a guy who has been a veritable thorn in my side for years.

Makes no difference the topic, he just automatically knows more about it than anyone else. Name the subject and he's the expert. No one else has an opinion worth a darn.

In the past few weeks, the guy has been strangely silent. I learned that he had deposited all his spare money in the savings and loan bank that closed its doors recently.

My question: Would it be a "low blow" in event this self-satisfied expert comes to light again, to say something like "Well, I'm not sure, but I didn't lose one single red cent in that savings and loan firm!"

Ina Squeeler (Dub)

Three gray-striped kittens, one black and white; phone 733-6553.

Five gray kittens; phone 733-2601.

**MISSING PERSONS DEPT.**  
The secretary of the 18th Tennessee Cavalry is trying to locate members who served in France during World War I.

Richard L. O'Brien, whose last known address was 1000 N. Main, is among those sought. Anyone know his present address?

**FAMOUS LAST LINE**  
"He still thinks about unknown reality will leave him a fortune."

GENTLEMAN IN THE FOURTH ROW

**Opinions of a Conservative**

By BARRY GOLDWATER  
President Johnson is a politician—a conservative and a common sense to our inflamed cities.

As polls increasingly indicate, the public generally is aware of the danger of a Johnson administration. It is apparent that beyond all of the preaching they are accustomed to get from the White House, they have a different view of the man.

The depth of this political view is shown in the fact that the polls show a majority of the country's security interests extend not only to countries with which it has defense pacts but to other areas where the United States has the peace in a significant way.

He said: "No would be aggressor should support that the United States would not support, unconditionally, unilaterally, U.S. military presence grants immunity to aggression."

He said that a further commitment to defend a particular country does not mean the United States would not help it in case of attack.

These trips have not been designed, it is obvious, to strengthen our case in Viet Nam, but to bring order, Vietnam decency, blindness, the treatment is wrong. A very reason of the military: I know of no other way in which a military disease can affect the vision.

Q—After a series of tests my doctor says I have chronic urticaria and angioneurotic edema. What is this and what kind of specialist would be the best one to treat it?

A—Urticaria is a skin condition characterized by hives and angioneurotic edema is a condition characterized by swelling of the tissues. You should see an allergist.

**Capital Questions**

By The Associated Press  
"I think it is ridiculous that the Soviet government is not distributing the Warren Commission report in Russia. This simply points out the American censorship policy enforced by the people living in a totalitarian form of government."—Rep. Gerald Ford

Sen. Edward Brooke (R-Mass.) who was a witness of the assassination of President John F. Kennedy.

"No government official has a right to refuse to provide information to protect the country. He should not be required to give out the information just because he was asked by the press."—Arthur Sylvester, chief, testifying before the Senate Foreign Relations Committee.

Q—My niece has blurred vision which an oculist says is due to malfunction of the vitreous body. What can be done for this?

A—A number of specialists can press the vitreous body and cause partial or complete blindness.

**The Doctor Says**

By WAYNE G. BRANDSTADT, M.D.  
Q—Is it true that one who has to wear thick glasses is so nearsighted that he can't read a street sign? Will he eventually go blind?

A—Persons who have a progressive type of nearsightedness often have to wear very thick glasses, and have great difficulty reading street signs even with their glasses. When their vision becomes so poor, they cannot read the sign, they cannot read the sign, they cannot read the sign.

Q—Several years ago I looked at an eclipse of the sun. I guess the dark glasses I used were not dark enough because the vision in one eye is blurred. Is there any remedy for this?

A—No one should look at the sun even in an eclipse. There is no kind of smoked glasses that would make it safe to look at the sun. Your eye doctor should determine whether your blurred vision is a result of a solar burn, for which there is no remedy, or if it is a condition which is partially remediable, chance.

Q—My niece has blurred vision which an oculist says is due to malfunction of the vitreous body. What can be done for this?

A—A number of specialists can press the vitreous body and cause partial or complete blindness.

**MOTION DENIED**  
BOISE (AP) — U. S. District Judge Fred M. Taylor, Thursday denied a motion for dismissal of charges against Joseph L. Smith in connection with the Frost-Boise corporation.

Smith is charged with fraud, larceny and securities law violations and conspiracy in connection with the sale of stock in the companies.

## Army Private Convicted for Duty Refusal

FT. DIX, N.J. (AP) — Pfc. James A. Johnson Jr. was convicted today of refusing to obey orders and of insubordination.

The seven-man military court delivered the verdict after 16 minutes of deliberation. Johnson, 23, a private first class, was charged with refusing to go to Saigon, appeared to smile nervously as the board returned from deliberations.

Johnson pleaded innocent Thursday at the general court-martial's opening day. His defense contended that a high-level Army-planning error had caused the court-martial proceedings.

Johnson admitted today that he intentionally disobeyed an order that he board an aircraft bound for Viet Nam.

The judge, advocate had replied, Johnson testified, "Only if my mother were on her deathbed."

## Drivers Urged To Visit Booth

Drivers were urged Thursday by Carl Burt, Boise, field representative for the Traffic Safety Education Department of the U.S. Department of Transportation, to visit the driver's booth at the Twin Falls County Fair.

**BIDS OPENED**  
BOISE (AP) — Bids were opened Thursday in the office of the Department of Public Works for two projects.

Schmidt and Hagen Construction Co. was apparent low bidder for roofing and repair on a building at Lewis Clark Normal School in Lewiston, with a bid of \$12,381.

Mattis Construction Co. of Boise was apparent low bidder for demolition of two residences near the capitol, as part of the capitol complex project, with a bid of \$2,499.

**MACHINIST KILLED**  
POCATELLO (AP) — A Union Pacific Railroad machinist was killed Thursday afternoon when a heavy boom fell on him in the railroad's maintenance shop.

Harry A. Curran, 46, died in the accident at 4:15 p.m. According to police officer Jay Nelson, Curran was helping operate a hydraulic posthole digger. The boom of the digger was raised and it fell when a hydraulic line holding the boom broke.

Curran was crushed beneath the boom, which weighed several tons, police said. A crane was required to lift the boom off his body.

**PERMANENT STATUS URGED**  
BOISE (AP) — Gov. Robert F. Smylie Thursday urged permanent status agency status for the Idaho Arts Commission.

In a letter to commission head Robert W. Hansberger, Smylie said the commission should obtain state funds through submission of a budget to the legislature.

In a meeting Friday at Coeur d'Alene, the commission was urged to formulate a statement of policy.

## SOLDIER KILLED

BOISE (AP) — U. S. Marine Corps advisor Maj. James R. Tull said today that a U. S. Marine was killed in action in Viet Nam.

**FASCINATED BY RABBITS** In the poultry building of the Twin Falls County Fair and Rodeo is Debbie Shinn, 18 months, daughter of Mrs. Jerrie Shinn, Twin Falls. The fair offers a variety of animals on exhibit. (Times-News photo)

## Miss America's Starry Eyes

By SALLY RYAN  
NEW YORK (AP) — Hours after the new Miss America is crowned Saturday night, the stars-in-eyes will twinkle in dollar signs.

Business is counting on the latest beauty contest winner to sell soft drinks, cars, perfume and clothes. She'll earn about \$20,000 doing it at a rock-bottom rate of \$250 a day.

That makes Miss America a money-making machine. The Miss America pageant alone operates on a \$500,000-a-year budget—\$200,000 from television, \$100,000 from ticket sales and \$200,000 from the four sponsoring companies.

The winner will open sponsors' bottling plants, attend their conventions and appear in their commercials. It is assured, before each state winner comes to Atlantic City for the finals, she signs a contract.

In 1957, the newly-crowned Miss America signed a contract but rolled up her winner's cash and headed home.

If that happened today, the pageant sponsors might sue.

## Telegram Is Sent to LDS Leader

SALT LAKE CITY (AP) — President Lyndon B. Johnson sent President David O. McKay of the LDS Church a telegram of congratulations Thursday on his 83rd birthday.

The telegram from President Johnson read: "I am with you in spirit as you mark the beginning of another year in a life that continues to be a source of inspiration for all who know you."

## Closer Audit Asked on War Construction

WASHINGTON (AP) — The House Appropriations Committee called today for closer auditing of the vast military construction program in Viet Nam.

The amount approved is substantial strength that I draw from your generous prayers and good works. So as I say today and I join on this birthday to wish you well, we only hope that the full measure of happiness which you have brought to so many others may be yours to enjoy throughout the coming year.

## Depth Given for Magic Reservoir

SHOSHONE — Magic Reservoir contained 35,000 acre feet of water Wednesday compared to 104,000 acre feet a year ago on that date.

Big Wood Canal Co. directors have decided to allot each Magic water user three extra days of water to be used by the end of September. No water will be run in October.

Tuesday American Falls reservoir contained 125,000 acre feet of water. Last year it had 1,100,000 acre feet on the same date.

## Thrift Idea

ANNAPOLIS, Md. (AP) — A report shows that one of the candidates for Democratic nomination for governor of Maryland has campaign expenses totaling \$407.

Andrew J. Easton, who campaigns on the slogan "Christmas for everybody," reported he spent the money on a Santa Claus train.

## Compromise On Rhodesia Crisis Nears

LONDON (AP) — A compromise program to end the rebellion in Rhodesia, including compulsory oil sanctions voted by the United Nations, was reported today in the Commonwealth conference.

Conference sources said in return for the oil sanctions and agreement to reduce dependence on Rhodesia rule by the black majority is assured, the African members of the Commonwealth would stand at least for a reasonable time, their demands that British troops overthrow Prime Minister Ian Smith's white minority government.

Only four white members — Australia, Britain, Canada and New Zealand — and Malaysia oppose the use of force to put down the rebellion by the white minority.

The rest of the 23-nation group of African, Asian and Caribbean countries want assurance that the colonies of non-black Africans will get control of the government. Smith's government, representing the white minority, has refused to state independence from Britain last November to block black rule.

## Hagerman 100F Lodge Has Meet

HAGERMAN — The first meeting of the fall session of the 100F Lodge was held Wednesday evening at the hall, with George Lemmon, noble grand, in charge.

Meeting dates will be the first and third Wednesday of each month. Two new members who were taken into membership at the Dead Horse Caves convocation in July, are Bill Whorton and Norman Billington.

Joseph Howard was named delegate to attend grand lodge in Pocatello in October. The next meeting will be held Sept. 21.

## Jerome Eyes Ordinance on Subdivision

TEROME — An ordinance dealing with subdivision within the city limits and within one mile outside the city was read for the second time at the Jerome City Council meeting here Tuesday night.

Several citizens attended to ask questions regarding the ordinance, which is the first dealing with subdivision for the city. Mrs. Mable Beverage, city clerk, noted that the ordinance is long and detailed, and the questions dealt mostly with interpretation.

The law is being proposed in connection with the suggested zoning regulations of the state zoning committee and is in cooperation with the county zoning commission, she said.

Anyone selling land within one mile of the city limits will come within the provisions of the ordinance. Councilmen will vote on the measure after the third and final hearing.

## HEADS SORORITY

WENDELL — Roberta Willard, daughter of Mr. and Mrs. Stern Willard, Wendell, has been elected president of the TAU Beta Sigma Sorority at Ricks College, Rexburg. The election automatically makes Mrs. Willard the vice president of the Ricks college band.

# Along Fences and Canals

Members of the Cotterel Mountain Cattlemen's Association have gathered their cattle from the Cotterel-range lands north and west of Malta, because of the lack of feed.

Arlo P. Lloyd, Elba rancher and driller, is drilling a well on the Golden Gardner farm in Malta.

Some damage to bean pods by maggots in the Tuttle area is blamed for lower yields in some fields. Several farmers in the community are combining their beans this week.

A new home built on the James Sheridan ranch is nearing completion at Malta.

Most farmers in the Almo community of Cassia county have completed harvesting grain and some crop of alfalfa hay. Fences are being repaired and some new fencing is done on summer pastures.

Darrell Roland and David Roland have returned to Fruitland after working this summer with their brother-in-law, Lester field area.

## Over the Corral Gate

Producer Pete Says...

"If you haven't heard Ken Trout singing out on an outliner, you've missed quite a show. Seems as how he can throw a stick out on any bell's anybody in the West. I know a lot of people who have seen him from his own back and will appreciate the news that he'll be taking charge every Tuesday at Jerome. Producer's Livestock Marketing Association has taken over Tim's Tuesday, so now Idaho stockmen will be getting the BONUS PROTECTION offered by one of the biggest representatives in the country. Producers. Yes, you're GUARANTEED PAYMENT when you consign your cattle to producers. So why don't you consign YOUR livestock for this Tuesday's auction at Jerome. Jerome Producer's Livestock Marketing Association... the best friend an Idaho cattleman ever had!"

Stanley Smutny, left, and Alvin Smutny, center, take a break from the field work to listen to the county official's reasoning. Jeff Smutny, one of Alvin's sons, looks on. (Times-News photo)

## Election Held

Three men, all from Hansen, were elected to membership of the board of supervisors of the new Snake River Soil and Water Conservation District as a result of an election held Wednesday.

The three are Lyle Jones, Lester Meylor and Virgil Wilson. The two other board members are Dean Moore and Dick Stafford who were appointed to their posts when the district was formed.

The supervisors will meet at the Soil Conservation District office, 634 Addison Avenue West, at 8 p.m. on Sept. 14 to organize.

## Iowa's Corn Might Be Taller, but Good Silage Comes From T.F. County

By O. A. (Gus) NELKER  
Times-News Farm Editor  
Iowa might be "where the tall-corn grows" but Twin Falls county is where the good silage comes from.

The 100 acres of corn will provide the Smutnys with about 3,000 tons of silage which will be stored in a pit 100 feet long, 40 feet wide and 14 feet deep. Unlike some farmers the brothers do not cover the silage with plastic. They raised 100 acres of corn for silage and by the end of next week will have it all chopped and stored, ready for winter use.

In connection with silage operations in the area, County Agent Donald Youtz said that in order to get the most nutrients from corn it should be cut at "just the right stage." "The corn should be well earled and matured so that the starch is grainy," he said. "Corn harvested when it is not properly matured carries too much water. This could be over 20 per cent."

## Area Holsteins Listed In Production Studies

BRATTLEBORO, Vt. — The performance records of 1,439 Holstein cows in area herds have been listed in an official production testing report from the Holstein-Friesian Association of America. Included are levels of solids-not-fat (SNF) production for individual animals.

The Holstein association's testing program includes evaluations for determining the SNF nutrients, such as protein, lactose and minerals, found below the "creamline" on milk. This solids-not-fat output is credited to the lactation records of individual cows in the same manner as total milk and butterfat production.

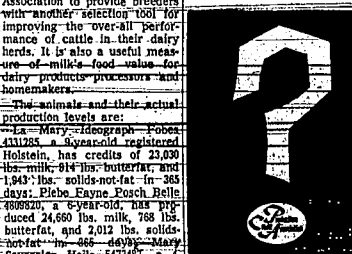

Total nutrient testing was started in 1962 by the Holstein Association to provide breeders with another selection tool for improving the over-all performance of cattle in their herds. It is also a useful measure of milk's food value for dairy products processors and homemakers.

The animals and their actual production levels are:

La-Mary-ideograph: Poles 431285, a 3-year-old registered Holstein, has credits of 23,050 lbs. milk, 614 lbs. butterfat, and 1,947 lbs. solids-not-fat in 365 days. Plebe Fayne, Poles 430920, a 6-year-old, has produced 24,660 lbs. milk, 768 lbs. butterfat, and 2,012 lbs. solids-not-fat in 365 days. Mary Sovereign, Heilo 5472467, a 7-year-old, had 16,420 lbs. milk, 558 lbs. butterfat, and 1,439 lbs. solids-not-fat in 305 days. Lark Ray, Colo. Perfection, Nancy 5654479, a 3-year-old, had 19,730 lbs. milk, 645 lbs. butterfat, and 1,659 lbs. solids-not-fat in 365 days. Beauty Pose, Chalenger 501417, a 6-year-old, had 16,630 lbs. milk, 608 lbs. butterfat, and 1,347 lbs. solids-not-fat in 365 days. All are owned by Louis Bott and Sons, Rupert, Idaho.

How-Ston Neptune Skynn 5416110, a 3-year-old Registered Holstein cow, owned by Frank W. Houston, Jerome, produced 19,290 lbs. milk, 710 lbs. butterfat, and 1,658 lbs. solids-not-fat in 365 days.

# Homemaker's Council Set At Pocatello on Sept. 22

POCATELLO — Several hundred women from all parts of the Oregon State University extension state will be in Pocatello for a session service, Corvallis, and the annual meeting of the Idaho Mary Durham Adams, probate Extension Homemaker's Council, Sept. 22 and 23, Mrs. Sam McNeill, Pocatello, is a national convention at Fort Col. chairman, said. Delegations representing more than 20,000 in the women's clubs will take part.  
The program arranged by Mrs. J. E. Shepherd, Eagle, president, and Mrs. Dorothy Stephens, Boise, assistant state home economist leader for the University of Idaho extension service, emphasizes six seminars. They are on safety, health, family life, citizenship, civil defense and international relations.  
The theme of the convention, "Your World With You" will be the subject of a link by C. O. Youngstrom, associate director of the Idaho extension service, or "Life in the Future" event of the University of Idaho, will address a banquet. Others on the program include Esther

### Cytrol does the job better, more economically...also controls other weeds and grasses

Cytrol works by systemic action to achieve a high degree of permanent control—with one application at a one-time cost. It gets results because it goes right into the plant system, killing roots and all.

When used by itself, Cytrol does not sterilize the soil. It can, however, be combined with soil sterilants or hormone herbicides for special problem areas. A cytrotic herbicide controls weeds and quick knockdown and kill of emerged weeds—and the sterilant prevents further germination and re-infestation.

Cytrol is easy to use, mixes instantly with water and requires no mechanical agitation. It can be easily removed from application equipment by rinsing out with plain water. Cytrol presents no hazards to those handling it and there is no problem from volatility drift. It also controls: Horseweed, reed, Sow thistle, Cat-tails, Dock, Reed canary grass, Berry vetch, Cheatgrass, Pilsdon oak, Milkweed, Leafy spurge and many other weeds and grasses.

AMINO TRIAZOLE. If you prefer to use a soluble powder in your sprayer, Amino Triazole is available in 4 lb. and 24 lb. containers.

FALL CATTAIL PROGRAM—Cytrol and Amino Triazole are recognized as the most effective chemicals for cattail control and are recommended and approved by University, State and other governmental authorities.

Before using any pesticide, stop and read the label.

## *Use Simplot Fertilizers*

In one sense, farming is getting easier. Each year brings new materials to do specific jobs better. Simplot Diamond Brand Fertilizers are good examples.

Whatever the crop or fertility problem... whatever the time-of-year or application method, there is a Simplot Fertilizer or mix tailored to give the most "grow" for the least "dough."

You may figure out your own fertility program. If you need help, however, your nearby Simplot dealer can assist you with know-how, custom application and a diversified line of fine quality Simplot Fertilizers. Better see him today.

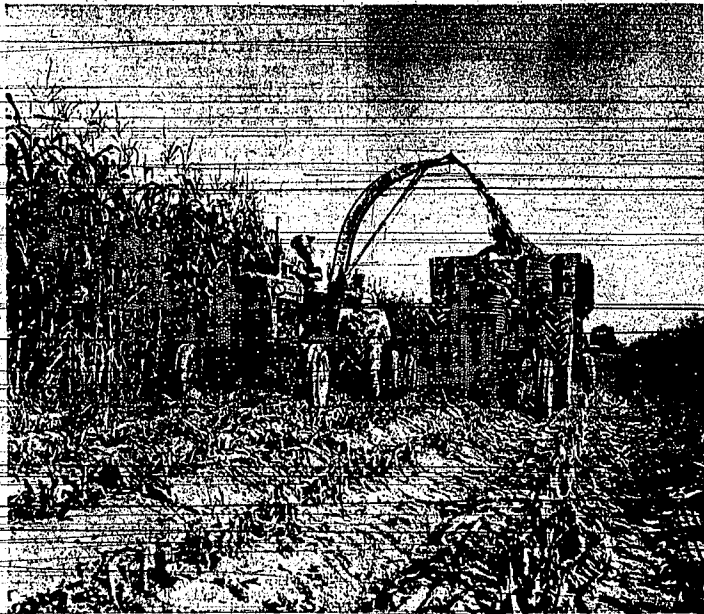

*It's Great Growing  
With Simplot*

## Nampa Hereford Entries Win

### At Western Fair

BOISE (Special) — Nampa Hereford Ranch, Nampa, exhibited both champions in Hereford judging at the Western Idaho State Fair. A large crowd was on hand, estimated at more than 300 people, to witness the judging with placings made by Howard G. Lewis, Bozeman, Mont.

The Western Idaho State Fair Hereford judging is a night time show with diversions for both juveniles and junior breeders.

Nampa Hereford Ranch's champion Hereford bull was their senior yearling, NHR Silver Dorn 952. Winning reserve champion was T5 Dorian, exhibited by Shaw Hereford Ranch, Caldwell.

stage of development the total plant moisture will be about 78 per cent.

In the early dent stage the total plant moisture is about 73 per cent. At the full dent stage the total moisture will be about 65 to 70 per cent. The grain is still moist enough to break with the thumb nail. This is the best stage for harvesting corn silage.

The silage at this stage has sufficient moisture for good corn silage, and has a high feed value. The grain contributed to the total dry matter is about 40 to 50 per cent.

Many livestock men, he said, produce as high as 30 tons of corn silage per acre and based on feed value would be the equivalent of about a 10-ton-per-acre crop of alfalfa hay. The feed value of corn silage is from 30 to 40 per cent that of alfalfa hay, and is a valuable addition to beef and dairy cattle operations.

At the Smutney farm, chopped alfalfa hay is used as a supplement to the silage feeding. The entire dairy herd operation at the Smutney place takes standard is the texture of the immature grain when broken by the thumb nail. In the milk

When corn is in the milk stage, the dry weight of the silage has reached the maximum. On the other hand, he pointed out, the total dry weight of the ear and the total nutrient value double by the time the kernels reach the hard stage. More than half of the dry weight of good silage is made up of the ear portion.

Visual observation of the corn ear is a poor yardstick for estimating the maturity for silage, Youitz said. A far better standard is the texture of the immature grain when broken by the thumb nail. In the milk

## Combination of Practices Can Lick Cheatgrass in Winter Wheat Crops

KIMBERLY — A combination of three practices can lick cheatgrass, wheat, and planting after the lowest cheatgrass plants. In winter wheat, the normal date for cheatgrass to germinate, but not too late for wheat production.

Where sweep tillage was started early in the spring, he said, extra moisture was saved for wheat germination and growth. In contrast, late sweep tillage was delayed two weeks, resulting in a 30 percent reduction in wheat yield.

A comparison of dates of the final weeding before planting showed that weeding just before

planting generally results in the lowest cheatgrass plants. A combination of early sweep tillage, final weeding just before planting, and planting Sept. 15 resulted in a 30 percent reduction in wheat yield.

# Second-Half Touchdowns Carry Wendell to 26-0 Victory Over Castleford

WENDELL—Wendell's Trojans were able to shake the penalty bug long enough for three second-half touchdowns. — the last one with 30 seconds to go—to decision the Castleford Wolves 26-0 Thursday night. The Trojans held Castleford at bay most of the night but their own mistakes, largely in the line, kept killing long-gainers and scoring threats. Castleford was unable to sustain any punch but had highlights

## Wetlands

WASHINGTON (AP)—More than 222,000 acres of waterfowl habitat were acquired during the year ended June 30 under the accelerated federal program to preserve wetlands, the Interior Department reported Thursday.

This compared with 253,000 acres acquired during the preceding fiscal year.

## Giants Deny Trying to Buy Maris

SAN FRANCISCO (AP)—The San Francisco Giants denied Thursday they were trying to get New York Yankee slugger Roger Maris for the National League stretch drive.

"We have not talked to the Yankees about Maris or anyone else and at the moment we don't intend to," said Chub Feeney, the Giants' vice president.

Manager Herman Franks said he had talked about Maris with New York Post baseball writer Milton Gross, but that was just casual dressing room talk, that's all. He mentioned Maris and I wondered what the Yankees could get for a guy who says he doesn't want to play anymore. My remark was strictly off-hand, that's all."

## Syracuse Meets Baylor Saturday

SYRACUSE, N.Y. (AP)—Syracuse University's high-powered football team will meet America's halfback, Floyd Little and Larry Cosma, a huge fullback, opens its bid for national honors Saturday in a nationally televised game with Baylor at Waco, Tex.

ABC will telecast the game starting at 4:30 p.m. EDT. The Orangemen are rated the best in the East in preseason forecasting.

## Falcons Acquire Linebacker

CHICAGO (AP)—The Atlanta Falcons finally got "retired" linebacker Larry Morris from the Chicago Bears Thursday in a trade for two future draft choices.

Morris, a 12-season National Football League star, declined to report to the Bears this year after apparently failing to induce his trade to the Falcons so he could be close to his real estate business at Decatur, Ga.

## Mets Think Ribant Will Be Great

NEW YORK (AP)—The banner was propped against the seats in the left field stands, and the letters, boldly painted on the sheet, proclaimed:

Ribant Is Great!

It stayed that way through five innings Tuesday night as Dennis Ribant, the Mets' young righthander, set down 15 Cincinnati batters in a row.

But when the Reds scored two runs, someone tampered with the punctuation.

Then the banner looked like this:

Ribant Is Great?

But to Manager Wes Westrum? "It's gone for good and here to stay for the 24-year-old pitcher, who is the winningest righthander in Mets history with 11 victories.

Ribant has been one of the biggest factors in the Mets' success story this season, posting an 11-3 record with a 2.0 earned run average since working himself into the regular rotation in June after being used as a reliever and spot starter.

"Ribant has been the most pleasant surprise to me," Westrum said after the 3-2 victory over the Reds. "He is a find."

The Mets found him in Milwaukee, acquiring him in a trade for Frank Lary during the 1966 season. But they didn't find out how to use him until this season — when they started giving the 3-foot-11 175-pounder an extra day's rest.

"I like to pitch on the fifth day," Ribant explained. "I'm a little finer with an extra day's rest. I think it's because I don't pinch myself."

With a minute left in the game, Castleford had to kick from its own eight-yard line. The low punt was returned 16 yards to the Wolf 25 by Roger Kling and three plays later Lancaster slammed in, giving the junior halfback two touchdowns in his first varsity game.

# Clay Plans to Make 20 Title Defenses

# SPORTS

tain the title after soft touch defenses this year against Canada's George Chuvalo and Britain's Brian London and Henry Cooper.

"I'm looking, past Milbender, at Clay, told newsmen."

"But it's getting harder and harder to get in the catch and if somebody can't get out of the ring, maybe they will

get me... but I doubt it."

Clay thought his next title defense would be against Clegg, and William "Boss" Houston, in eight weeks followed by another one against Ernie Terrell in Chicago or New York another eight weeks later.

There's a possible title shot for the winner of the Henry Cooper-Eloyd Patterson fight in London Sept. 30," he said, "if the business is heavyweight, since Joe Louis," Clay said, "And I'm fighting when the taxes get higher and higher."

Clay said that his firsts had brought-in \$5 million, "and a large tax deduction," and said, "What will I come out of this fight with? I'll be left with \$100,000 after tax deduction."

The fight will be telecast-closed circuit at theaters in London and will be telecast by Early Bird satellite in the U.S.

**Santana and Newcombe Cop Net Wins**

# Santana and Newcombe Cop Net Wins

—FOREST HILLS, N.Y. (AP)—Manuel Santana of Spain, the U.S. and Wimbledon titleholder, survived a dramatic three-hour marathon against Australian second-stringer Bill Bowrey Thursday and went into the men's semifinals of the National Tennis Championships with

Hobbling on a heavily taped right ankle and calling on all his court craftsmanship, the Spaniard outlasted the plucky Aussie 6-8, 6-2, 8-6, 5-7, 6-4.

have three games left with the Dodgers, all at Los Angeles; seven—with the Giants, four of them in San Francisco, and three—with the Phillies, all in Philadelphia. The other games are with the Cards—(3), Astros (1), and Braves (4).

San Francisco has 13 at home.

The unseeded Newcombe, conqueror of America's Arthur Ashe in the third round, won a weird, up-and-down battle from Britain's blond bomber, Mark Cox, 3-6, 6-1, 3-6, 6-2, 6-1.

Miss Melville, who ousted top-seeded, and Wimbledon champion Mrs. Billie Jean King in the second round, won easily over an Australian teammate, Madonna Schacht, 6-1, 6-2.

In the women's tournament, second-seeded Maria Bueno of Brazil, seeking her third U.S. title, plays sixth-seeded Norma Baylon of Australia and Rosemary Casals of San Francisco, seeded No. 5, faces fourth-seeded Francoise Durr of France.

In quarter-final matches in the men's tourney, Clark Graebner of Beachwood, Ohio, the last U.S. survivor, goes against Fred Stolle of Australia Friday, and veteran Roy Emerson, two-time winner of this event, opposes one of his younger teammates, left-handed Owen Davidson.

## Mays Shines As Pressure Increases

**SAN FRANCISCO (AP)** — When the pressure is on Willie Mays, he puts it on the other side.

His latest feat of darning showed the San Francisco Giants to within half a game of National League leading Pittsburgh.

With two out in the top of the

12th inning Wednesday night at Los Angeles and the score tied 2-2. Dodger pitcher Joe Moeller missed with his first three pitches to Willie.

Respecting the power of the 35-year-old homerun champion and knowing he was injured, Manager Walt Alston of the Los Angeles Dodgers

Angelo Dodgers ordered him to walk intentionally even though he thought it put a potential winning run on base.

Then Moeller would face rookie Frank Johnson, playing in his first major league game. Johnson promptly singled, ignoring the groin muscle.

As Willie slid into the catcher's box, the ball popped onto the ground. Willie was hurt. San Francisco

**Manager Herman Franks** said "Willie was really hurting when he came in after scoring the run but he wouldn't come out."

After Monday's injury, Franks moved Mays from the centerfield station to another outfield position so he wouldn't
